

Week 3 Report

CampusConnect Project Report

Name: Ravi Ranjan Bhardwaj

Project: CampusConnect – Event Management Web Application

Technologies Used: HTML, CSS, JavaScript, Local Storage, Git & GitHub

Work Completed:

- Implemented JavaScript functionality.
- Added dynamic event rendering.
- Added category-based event filtering.
- Implemented event search functionality.
- Developed Add Event feature.
- Stored events using Local Storage.
- Implemented dynamic Event Details page.
- Developed Event Registration system.
- Prevented duplicate registrations.
- Implemented registration cancellation.
- Displayed registered events dynamically.

Outcome:

Converted the project from a static website into an interactive event management application.
